

Strip Till Field Day

Hear from leading growers and experts from around the Midwest. Speakers include:

- ⇒ **Mark Hanna**, “Getting the Most From Your Strip-Till Equipment” Mark is a registered professional ag engineer working in tillage, planting, and other farm machinery topics after a career at Iowa State University. Hanna will discuss adjustment and operation of strip tillage implements and effects on soil loosening, fertilizer placement, and soil preparation for planting in the seed zone.
- ⇒ **Abigail Peterson**, Soil Health Partnership
- ⇒ **Eric Miller**, Strip-Till User
- ⇒ **Farmer Panel** ...Bring your questions!

After the morning session, visualize how to put these practices into place with afternoon demos of strip till bars and cover crop application methods. RSVP today! CCA CREDITS HAVE BEEN APPLIED FOR
