

Missouri Corn Fun Facts!

Parents and teachers – did you know?

- Missouri is ranked as one of the top 10 corn producing states in the nation.
- Actual farm value accounts for only 19 cents of every dollar of processed food. The remaining 81 cents is wrapped up in processing, packaging, transportation, marketing and other inputs.
- Corn farmers nationwide produce enough corn that we can export one in every five rows of corn each year.
- Only 1% of the corn America produces is sweet corn – the rest is field corn.
- Individuals or families own 85% of corn farms. Another 5% are family-held corporations.
- These days, farmers grow five times as much corn as they did in the 1930s – and do so on 20% less land.
- Today, farmers produce 70% more corn per pound of fertilizer than they did 35 years ago.
- Farm management practices have reduced soil erosion 43% over the last 20 years.
- Less than 15% of all the corn farmland in the U.S. is irrigated. The rest is only watered by Mother Nature in the form of rainfall.

- Increased ethanol production will add more than \$1.7 trillion to the economy between 2008 and 2022.
- Missouri is home to six majority farmer-owned ethanol plants that produce approximately 275 million gallons of ethanol each year, replacing roughly 10% of the gasoline Missourians would otherwise use to drive their cars.

One bushel of corn (56 lb) provides:

31.5 lb. of starch

OR

33 lb. of sweetener

OR

2.8 gal. of ethanol

OR

22.4 lb. of PLA fiber/polymer

PLUS:

17.5 lb. of distillers dried grains w/solubles

)R

13.5 lb. of gluten feed2.6 lb. of gluten meal

AND

1.5 lb. of corn oil

Ke Time Why should you never tell a secret near a cornfield? It has too many ears. Map of the Continents the name of the continent that matches each number. On the lines (below), write Color each continent that every continent but one. produces corn green. Corn is produced on က က 5. 9 \sim i 4

Map of the United States

number on the map.

Farmer John's Classroom Maze!

Farmer John has to find all the things in the classroom that have corn in them.

Help him get from START to STOP.

Can you find the crayons, envelopes, paper, books, chalk, glue and paint?

The Many Uses Corn!

Many of the items we use daily are made with corn. In the word search puzzle, find the following products that contain corn. They may be found written vertically, horizontally or diagonally.

Words to find:

ethanol	soap	ink	pudding
gum	crayons	paper	trash bag
paint	cereal	packing peanuts	cosmetics
glue	diapers	corn oil	salad dressing
soda	ketchup	medicine	fireworks

Farmers across the U.S. are using corn to make fuel for our cars. Unlike gasoline, which is made from oil, ethanol is a renewable fuel that helps reduce our dependence on foreign oil and provides cleaner air for us all to enjoy.

Word Scramble

Unscramble the words to see how corn farmers and ethanol are helping to clean our environment.

bernaelwe	nerge	alnec	holtena
oncr	resfmar	mtvnonneeri	
			in the classroom

Story Time

Corn can be found in toothpaste, aspirin, makeup, soap and medicines. Corn helps you stay clean and healthy!
